The South Hill Community Jubilee Orchard

Open Day on September 5th to celebrate the successes to date. ALL WELCOME.

There will be a picnic and some fun activities in the afternoon.

PLANT Your PANTS. Bring old cotton underpants, T Shirts, Hankies. Must be 100% cotton, to be planted, to test the soil health. After 6 weeks we'll see if the cotton has deteriorated, which will indicate how healthy the soil is.

We'll be identifying and recording plants and bugs we find, with an aim to improve the orchard biodiversity.

And more fun for everyone. Please join us, bring your own food and drink if you prefer.

Thank you to all that answered the question, *'How many thousand times could you boil this kettle using the electricity generated by the Parish Hall solar panels since installation'*

Katy was the winner being the closest to the correct answer of **189** (thousand).

We entered an Air Fryer into the Fun Day Raffle, which was won by Anthony.

And there was lots of interest in the initial stages of the new Energy Club.

The Recycling for Charity project was on display, check the new changes [here](#).

Thank you to our team of helpers and congratulations to the hall committee for a really well attended fun day.
